DESTINATION UGANDA

More often than not, you will encounter the phrase; **Uganda is the “Pearl of Africa”**. This captivating statement has been made by many travelers, including Winston Churchill after indulging in the beauty of Uganda. However, until you walk that same path yourself, you can never really understand the uniqueness that is embedded in the wildlife destination; Uganda.

Carefully positioned in the footpath of the equator, Uganda enjoys a relatively warm weather throughout the year that allows you to exploit all the safari activities that you have always dreamt of. Hike the famous “Mountains of the Moon” under a clear sky in January, trek Mountain Gorillas in February or experience extreme water sports on River Nile during your summer break. In Uganda, you get to do it all! A typical Ugandan adventure cascades over the fresh waters of the Nile as it leaves Lake Victoria all the way north forming the mind blowing Murchison Falls. Live out your safari days exploring some of the most phenomenal spots in Africa such as Queen Elizabeth National Park where you will find the rare tree climbing Lions of the planet.

From large fresh water bodies, effortlessly beautiful landscapes to towering Mountains and clear Rivers; Uganda is the ultimate travel destination for you!
